PROFESSIONAL SUMMARY

Senior Full-Stack Engineer specializing in PHP/Laravel backends and component-based frontends, with 15+ years of product development across fintech, e-commerce, and SaaS. Architected Shahr-e-Aghsat's BNPL platform (12 modules, Laravel + Next.js, 10B+ IRR/year) and led WordPress-to-Laravel full-stack migrations. Strong command of OOP, MySQL, Redis, and Docker. Led teams of up to 14 engineers at IranSampler, driving code reviews and technical roadmaps. React/Next.js background translates directly to Vue.js 3 Composition API patterns - full-stack from backend API to component-based UI.

WORK EXPERIENCE

Shahr-e-Aghsat (Tandis Mandegar Pardis) Apr 2025 - Apr 2026

Full-Stack Developer • Middle East

- Architected a **12-module BNPL/installment platform** - PHP/Laravel 10 backend with Next.js 14 component-based frontend, processing 10B+ IRR/year in live transactions.
- Designed **reusable component architecture** (installment calculators, wallet dashboards, order management) with clean API contracts between backend and UI layers.
- Built wallet system, **loan management**, **credit scoring**, and BehPardakht/Mellat Bank gateway - Porto DDD + Laravel Horizon queue workers for async processing.

Innoghte (Remote - USA) Apr 2024 - Nov 2025

Senior PHP & React Developer • Remote

- Led full **WordPress → Laravel + React migration** - full-stack ownership from PHP/Laravel API design to React component-based UI; rebuilt course management and content delivery.
- Improved performance and SEO significantly - **OOP-first** Laravel backend with reusable React components replacing legacy WordPress templates.

Sinapse Jan 2026 - Apr 2026

Back-End Developer • Middle East

- Re-architected AI health platform backend with **Porto architecture** - structured API contracts for cross-functional collaboration; reduced API response times via MySQL optimization and Redis caching.

IranSampler Aug 2022 - May 2023

Team Lead & Senior Developer • Middle East

- Led **14 engineers** in agile sprints - architected multi-tenant SaaS survey platform (Laravel backend, Vue.js component-based frontend, dynamic form builder engine).
- Established **Git-based CI/CD workflows** and code review process; defined technical roadmap and mentored cross-functional team.

Amazon Web Services Nov 2015 - Sep 2018

Senior Developer - Cloud Infrastructure • Singapore

- Migrated **25+ enterprise applications** to AWS (EC2, S3, RDS, SQS, ElastiCache) across Southeast Asia - 99.9% SLA; designed cloud scalability and resilience architectures for 20+ organizations.

Mosbat Sabz E-Commerce

Jul 2021 - Jul 2022

Senior Laravel & Vue.js Developer · Middle East

- Full-stack development for online pharmaceutical e-commerce - **Laravel backend + Vue.js component-based** frontend with WooCommerce plugin customization.
- Built and customized **REST API integrations** and implemented advanced MySQL queries for reporting and database optimization.

Donya-e-Eqtesad Media Group

May 2023 - Apr 2025

.NET Developer · Middle East

- Reviewed and updated **7 core internal systems** for large regional financial media group - code refactoring, system stability, and infrastructure upgrades.
