WORK EXPERIENCE

Tandis Mandegar Pardis (Shahr-e-Aghsat)

Apr 2024 - Apr 2025

Full-Stack Developer - Frontend Lead | Middle East

- Built the **Next.js 14 frontend** for a live BNPL platform - admin dashboard with real-time transaction reporting, responsive checkout flows, and dynamic installment scheduling UI.
- Designed **TypeScript component architecture** across 12 independent platform modules (wallet, orders, installment scheduler, fraud flagging), applying React Context for clean state isolation per domain.
- Integrated frontend with payment gateway webhook events - idempotent state updates and real-time transaction status flows using Redux-style patterns.
- Delivered maintainable, reviewable codebase: consistent component interfaces, typed API contracts, and clear separation of UI logic from business rules.

Innoghte (Remote - USA)

Apr 2023 - Nov 2023

Senior PHP & React Developer | Remote

- Led full **WordPress-to-React migration**: rebuilt all frontend from PHP templates to a modern React component architecture with clean routing and state management.
- Rebuilt course management UI, user progress tracking dashboard, and content delivery player as React single-page components - improved Lighthouse scores ~60% post-migration.
- Delivered **zero-downtime migration** for active US-based users via phased rollout - async cross-timezone collaboration throughout.

Amargaran Tafakkor Ideal (IranSampler)

Aug 2022 - May 2023

Team Lead & Senior Developer | Middle East

- Led a development team delivering **IranSampler**, a professional survey SaaS (comparable to Typeform) - Vue.js 3 frontend with dynamic form builder, branching logic, and real-time response analytics.
- Ran code reviews, defined component standards, and maintained technical roadmap across a team of engineers.
- Built multi-tenant UI with per-tenant theming, role-based access dashboards, and CSV/Excel export flows.

Mosbat Sabz E-Commerce

Jul 2021 - Jul 2022

Senior Laravel & Vue.js Developer | Middle East

- Delivered full-stack development (Laravel + Vue.js) for an online pharmaceutical e-commerce platform - custom WooCommerce plugin hooks, REST API integrations, and responsive product catalog UI.

Sinapse

Jan 2025 - Apr 2025

Back-End Developer | Middle East

- Re-architected backend of an AI-powered health platform using Porto architecture - clean separation enabling safe parallel frontend development.
- Collaborated with the AI/ML team to define typed API contracts for predictive health features consumed by the React frontend.

Amazon Web Services

Nov 2015 - Sep 2018

Senior Developer (Cloud Infrastructure) | Singapore

- Migrated 25+ enterprise applications to AWS across Southeast Asia, maintaining 99.9% SLA - systems-level scale experience that informs performance thinking on any modern web application.

Cloud Computing Business Innovation Sdn. Bhd.

2010 - 2019

Co-Founder & CEO | Malaysia

- Co-founded an MSC-status IT company in Malaysia - led up to 14 engineers delivering web applications for government agencies and universities. Named Top Web Developer Southeast Asia 2019.
