PROFESSIONAL SUMMARY

Senior Backend Engineer with 15+ years designing highly scalable, highly available systems using PHP/Laravel, AWS, and distributed data architectures. At Amazon Web Services Singapore, maintained 99.9% SLA across 25+ enterprise cloud migrations (EC2, S3, RDS, SQS, ElastiCache). At Shahr-e-Aghsat, built a high-throughput BNPL backend (Laravel, Redis queue workers, MySQL) processing 10B+ IRR/year with zero payment failures over 6 months. Expert in SQL performance, async queue systems, and DDD. Currently expanding into Go to complement deep PHP/Laravel backend expertise. M.Sc. Software Engineering, Staffordshire University UK.

CORE COMPETENCIES

PHP/Laravel 10/11

Highly Scalable Backend Systems

MySQL & PostgreSQL

Redis & Queue Systems (NSQ-pattern)

AWS (EC2, S3, RDS, SQS)

Go (learning)

DDD & Modular Architecture

Technical Leadership

WORK EXPERIENCE

Amazon Web Services Nov 2015 - Sep 2018

Senior Developer - Cloud Infrastructure • Singapore

- Migrated **25+ enterprise applications** to AWS (EC2, S3, RDS, SQS, ElastiCache) across Southeast Asia - maintained **99.9% SLA** for 20+ organizations in financial, healthcare, and government sectors.
- Configured **async queue systems** (SQS) and distributed caching (ElastiCache) for high-throughput workloads; designed high-availability architectures with fault tolerance and horizontal scalability.

Shahr-e-Aghsat (Tandis Mandegar Pardis) Apr 2025 - Apr 2026

Full-Stack Developer • Middle East

- Architected a **high-throughput BNPL backend** (Laravel 10, Redis Horizon workers, MySQL) - 10B+ IRR/year with zero payment failures over 6 months in production.
- Designed **NSQ-pattern async pipeline** - Horizon queue workers for payment dispatch, reconciliation, and notifications; SQL-level transaction integrity with complex joins and index tuning.
- Applied **DDD + modular monolith** (Porto SAP, 12 domain modules) with clean aggregate boundaries; built wallet system, loan management, and bank gateway integration.

Sinapse Jan 2026 - Apr 2026

Back-End Developer • Middle East

- Re-architected AI health platform backend with **Porto architecture** - independently deployable service layers; reduced API response times via MySQL optimization, Redis caching, and service decomposition.
- Exposed **structured API contracts** for AI/ML predictive features - clean domain boundaries enabling cross-functional team velocity.

IranSampler Aug 2022 - May 2023

Team Lead & Senior Developer • Middle East

- Led **14 engineers** - architected multi-tenant SaaS platform (shared DB with row-level tenant scoping, Redis-cached tenant configs); defined technical roadmap and architecture decisions.

Innoghte (Remote - USA) Apr 2024 - Nov 2025

Senior PHP & React Developer • Remote

- Led **WordPress → Laravel migration** - rebuilt backend on clean PHP/Laravel REST APIs with SQL-optimized data access layers; improved performance via query optimization and index tuning.

.NET Developer · Middle East

- Updated **7 core internal systems** for large regional financial media group - system stability, code refactoring, infrastructure upgrades; built real-time news monitoring platform.

KEY PROJECTS

shahr-aghsat.com LIVE

High-throughput BNPL backend - Laravel Horizon queue workers, MySQL with SQL-optimized credit scoring and installment scheduling, Redis caching. 10B+ IRR/year, zero payment failures over 6 months. NSQ-pattern async architecture for payment dispatch and reconciliation.

Laravel 10 · MySQL · Redis · Laravel Horizon · Porto SAP · AWS · Docker

iransampler.com LIVE

Multi-tenant SaaS survey platform - shared PostgreSQL-compatible schema with row-level tenant isolation, Redis-cached configs, Laravel backend. Led 14-engineer team through full build cycle with technical leadership and code review process.

Laravel · MySQL / PostgreSQL · Redis · Multi-tenant SaaS · Docker · CI/CD

AWS Southeast Asia Enterprise Migrations 25+ CLIENTS

25+ enterprise on-premise to AWS migrations across Southeast Asia - EC2, S3, RDS, SQS, ElastiCache. High-availability architecture design, async queue configuration, and 99.9% SLA maintenance across all migrations.

AWS EC2 · S3 · RDS · SQS · ElastiCache · Linux · Nginx

EDUCATION

M.Sc. Software Engineering · Staffordshire University 2011-2013

GPA 17/20 · Thesis: Cloud-based distributed systems architecture · United Kingdom

B.Sc. Computer Hardware Engineering · Azad University Tehran 2005-2010

GPA 16/20 · Iran

CERTIFICATIONS

Porto Architecture Practitioner - Applied in production (Sinapse & Shahr-e-Aghsat)	Self-certified	2025
IELTS Band 7.0 (C1+)	British Council	-
Top Web Developer - Southeast Asia	Regional Award	2019
MSC-Status Company Certification	Malaysia	2015

TECHNICAL SKILLS

- Backend:** PHP 8.x, Laravel 10/11, ASP.NET Core, Node.js, REST API, GraphQL, Porto Architecture, DDD, SOLID
- Databases:** MySQL, PostgreSQL, Redis, Elasticsearch, MongoDB - SQL performance tuning, index optimization
- Cloud & DevOps:** AWS (EC2, S3, RDS, SQS, ElastiCache), Docker, Kubernetes, GitLab CI/CD, Linux, Nginx
- Queue Systems:** Laravel Horizon, Redis Queues, AWS SQS, NSQ-pattern async workers
- Architecture:** Highly Scalable Systems, High Availability, DDD, Modular Monolith, Porto SAP, Microservices
- Go:** Learning - concurrency model, goroutines, standard library (active upskilling)
- Languages:** English (IELTS 7.0 · C1+), Malay (conversational), Persian (native)
